

To my U.S. Senators and Representative:

We, the American people, have decided that as a corporate body, Congress can no longer be entrusted with the long-term fiscal viability of the United States of America. Instead of being concerned with the fiscal health of our country, Congress has descended into a dark, ideological abyss where utopian policies prevail.

By conservative estimates, adding the current public debt to future obligation for entitlements, you have obligated every man, woman, and child to approximately \$200,000 of debt. This is YOUR doing, and in no way have "we, the people" ever expected that elected officials would show such corruption, irresponsibility, incompetence, ineptness, ignorance, and foolishness. Our patience is gone. We have no choice but to sincerely and without compromise push back until you come to your senses or are replaced at the next election cycle. From now on, we will no longer leave it to Congress to look out for us – this has proven to be a false hope.

The following are our mandates:

1. A Constitutional amendment that limits Federal spending to 10% of our cumulative adjusted gross incomes.
2. A publicized, realistic, auditable plan to pay off the public debt by the end of 2029.
3. A combination flat income tax/national sales tax, with the only deduction being for charitable donations.
4. A requirement that everyone with income must pay taxes and must pay those taxes at a single rate.
5. A plan to eliminate future obligations for "entitlements" such as Social Security, Medicare, and Medicaid.
6. A formula for calculating the salary and retirements benefits for Congress.
7. A requirement that only those who can legally cast a vote in a Federal election can contribute money to a candidate running in that election
8. A Constitutional elimination of the "estate tax," also known as the "death tax."
9. An end to all corporate and business taxes.
10. A recognition of and recommitment to the 10th amendment to the Constitution.
11. Term limits for Senators (12 years); Representatives (eight years); and Supreme Court Justices (12 years).
12. A Constitutional amendment that allows each State to include one issue on the Federal election ballot every two years.
13. A Constitutional amendment that mandates that all bills voted upon deal with one and only one subject.
14. A law that requires that each Senator and Representative certify in writing that they have read and fully understand each and every bill in its entirety before they vote on it.

To be clear, you are receiving this information because we want you on the side of "we, the people." You can be of immense help by trying to convince your colleagues to implement these laws. But if you do not side with "we, the people," we will do it without – or in spite of - you. We will positively publicize each and every Senator or Representative who will help "we, the people." We will also negatively publicly and help defeat each Senator and Representative who will not. We have had enough, and we are not going to sit idly by while a corrupt Congress destroys our country.

Thank you for your attention to this matter, and we hope you will agree that these changes need to be made...and made quickly.
